Subject: URGENT: Southwestern Energy said yes to another prospective case study

---

Hi folks,

When I came in this morning, I had a voice mail left last evening by George Sheffer, Vice President for Exploration and Production Services at Southwestern Energy (SWN). He indicated the SWN management had approved moving forward with a prospective case study in the Fayetteville Shale with us. He had a staffer call me this morning to confirm I had received the message, and I told him that: 1) we are very happy to have them work with us; 2) I wanted to make sure they understood that I had told George this was a preliminary inquiry at this point; and 3) I would try and confirm quickly whether we could do this. So they are now waiting on us to give them an answer.
